

ALL ABOUT LOVE

*Create a pink and red sensory bin. Find all those red and pink items around your house and fill a bin. Your child will have fun exploring.

*Get creative in the kitchen with heart shaped, cookies, muffins or pancakes. Let your child help, it makes the memory special.

*Make a LOVE book for someone special. Write, draw, or photograph things you love about the person.

*Make your own valentine cards using paper, stickers, markers or stamps.

*Learn about addressing envelopes as you send those valentine cards to friends and family.

*Make a Valentine banner using all those leftover valentines from years past. Punch two holes in the top of the card and weave a ribbon through creating a banner. Add some homemade hearts in between.

*Use red or pink plates and napkins creating a festive snack time.

Today's Moments are Tomorrow's Traditions

Spend time with the ones you love. *Mary Rose*
