

# May Flowers Bring Family Fun

- \*Put on rain boots and jump in the puddles
- \*Plant a wild flower garden. It is simple; you just need a small area of dirt and several packages of seeds. Watch the delight in your children's eyes as the seeds sprout and grow into a colorful garden. Minimal maintenance required.
- \*Use contact paper and make a flower petal collage.
- \*Plant some sunflower seeds in the corner of your yard and watch them grow. The birds and squirrels love the seeds from the flower center later in the season.
- \*Paint with carnations, daisies or sunflowers.

*Today's Memories are Tomorrow's Traditions*

Colorful flowers bring hope to all, after a long winter.

*Mary Rose*
