## Oobleck - Is it liquid or solid?

Be a scientist and discover its properties.

- 2 cups cornstarch
- 1 cup water

Mix with a spoon until wet and dry ingredients are blended together.

If you wish to add color to your Oobleck, add food coloring to the water before mixing with the cornstarch.

Today's Moments are Tomorrow's Traditions

Have fun creating family memories this month, no matter how big or small the activity may be! I would love to hear about your family time experiences, *Mary Rose*
